2004 Standard: 1 SEM Standard for Grades 3-10 and 2 SEM Standard for Grade 11. Number of students tested is in parentheses.

All students tested in the first (March) and second (April) administrations of the TAKS are included for both years.

Students who passed in March and retested in April are not included.

Students with miscoded ID numbers may be counted twice if tested in Spanish and English or tested in both March and April administrations.

Percentages may not add up due to rounding. Percent Met Standard is suppressed if the number of students tested is less than 6.
