

# CITY LIVING

## *urban foxes*

They have  
quit forests and  
fields for sheds, flowerbeds;  
forfeited wild berries for shrimp  
lo mein.

It seems  
an easy life,  
but in close quarters, cars,  
capture, and contagion take  
their toll.

Foxes  
adapted to  
city living find it  
full of plenty—but plentiful  
in risk.
