Total of 5 Propositions

Senate Bill 30 authorizes one proposition for general purposes and requires separate propositions for special purposes.

“School districts may use one general-purpose proposition for construction, acquisition and equipment of school buildings, including necessary sites, and the purchase of new school buses, unless all or a portion of the bonds include certain special purposes.”

Bonds for each of the following special purposes must be stated in a separate proposition:

1. The construction, acquisition, or equipment of a stadium with seating capacity for more than 1,000 spectators
2. The construction, acquisition, or equipment of a natatorium
3. The construction, acquisition, or equipment of a performing arts facility
4. An acquisition or update of technology equipment, other than equipment used for school security purposes or technology infrastructure integral to the construction of a facility

“Each separate ballot proposition must state the principal amount of the bonds to be issued that constitutes the cost for construction of that portion of the building or complex attributable to the building…”

House Bill 3 amended section 45.003 to require school districts to include the following statement in bond propositions on the ballot: “THIS IS A PROPERTY TAX INCREASE.”
