1	anonymous	English (United States)	Multi-generational campus with historic implications.
2	anonymous	English (United States)	Inclusive and inviting school where every single child can feel welcomed.
3	anonymous	English (United States)	The school is a key part of this community. Generations of parents and scholar have passed through these halls.
4	anonymous	English (United States)	This new school should reflect the fact that we are personalized learning campus. Create spaces not only in the classrooms but outside the classrooms that student can learn and develop themselves.
5	anonymous	English (United States)	Community is a HUGE part of Hall. We are a very tight net school that could not function without our communities support.
6	anonymous	English (United States)	It should be the hub of the community. It needs a STEAM wing with labs, dance studios, art studios, technology for robotics and coding. It needs a library with collaborative spaces and a parent and community area. I would like to see a beautiful playground and a more refined area for drop off and pick up for the safety of students. I would love to see natural light throughout the building and two levels.

7	anonymous	English (United States)	In the community, this school has a great significance. There are many parents that have attended this school and they now send their kids here. With this new building, many more generations of this community will be able to attend.
8	anonymous	English (United States)	We are a community school. Brought together by the community for the community.
9	anonymous	English (United States)	The new school should represent the future of this community, as we will be building future leaders in there. It should represent also new opportunities for the community to be the heart of Oak Cliff.
10	anonymous	English (United States)	This campus provides a safe place where students are meet with progressive learning experiences and acceptance.

1	anonymous	English (United States)	Historical elements.
2	anonymous	English (United States)	The element that represents the Hall Elementary school is the mighty Lion in red, black and white.
3	anonymous	English (United States)	Probably just the mid-century architecture.
4	anonymous	English (United States)	I don't know how to answer this. Keep in mind our population is mostly Hispanic and bring in some cultural feel. We are a familia!
5	anonymous	English (United States)	Our garden is probably the most significant part.
6	anonymous	English (United States)	The design drives the character of Hall. It needs to exude pride and leadership.
7	anonymous	English (United States)	The garden is very important with classroom view to the garden. It's the heart of the school.
8	anonymous	English (United States)	It should be a modern and future learning aspect. It should look and foster what we are, a Personalized Learning campus. We are building for the future generations
9	anonymous	English (United States)	State of the Art equipment and facilities
10	anonymous	English (United States)	The campus is dedicated to students as well as the community and should represent the progressive education taking place.
