Project Manager – Jacobs

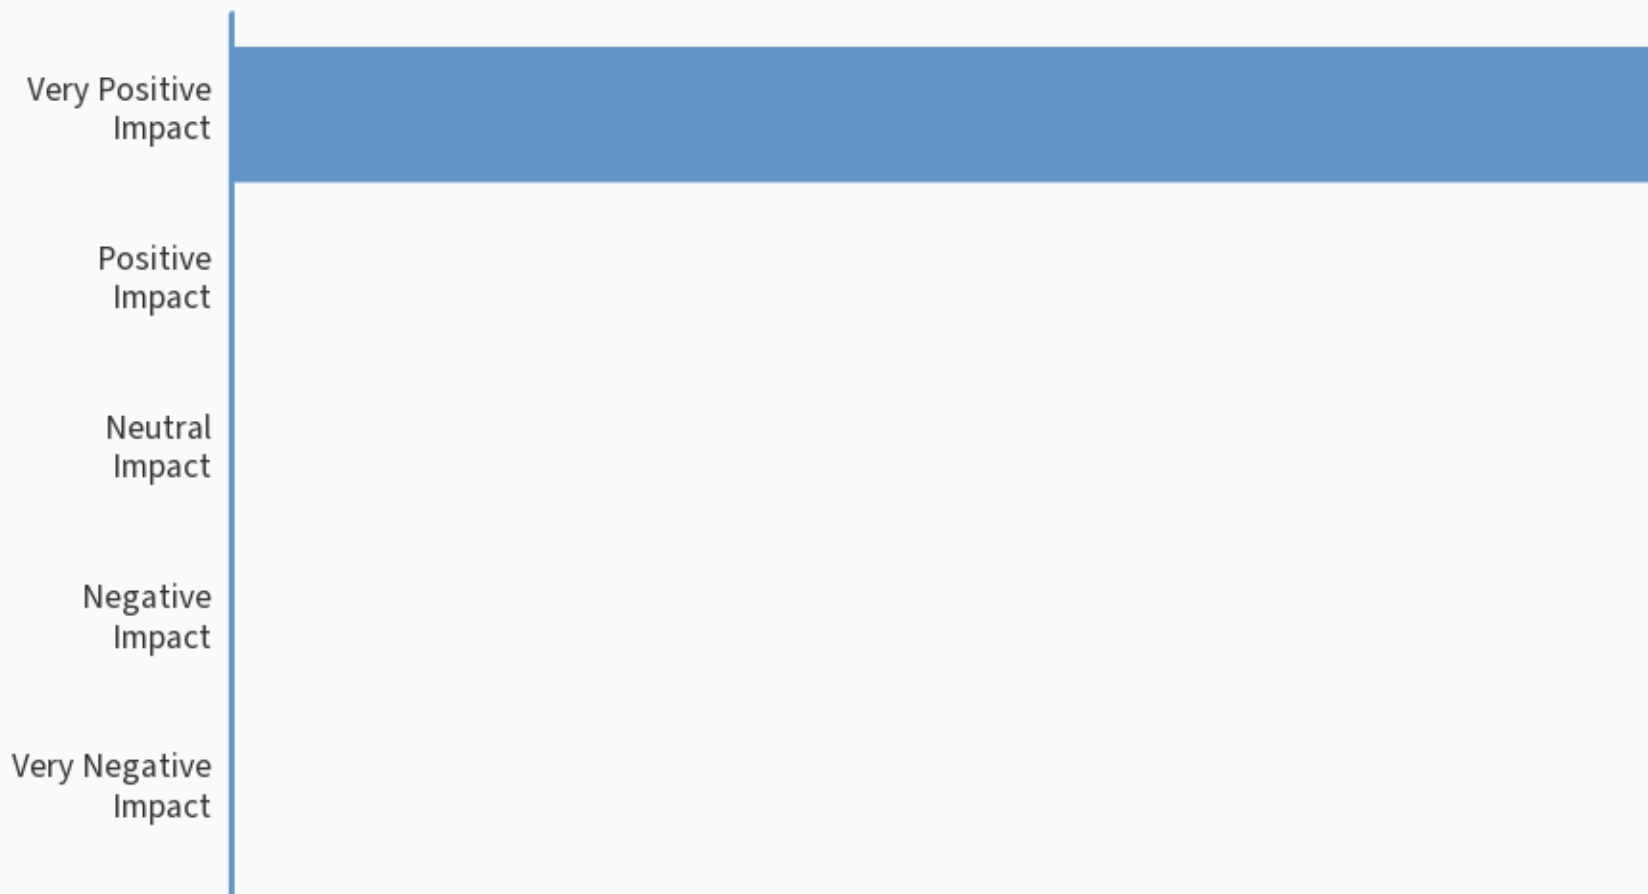

Architect – Huckabee

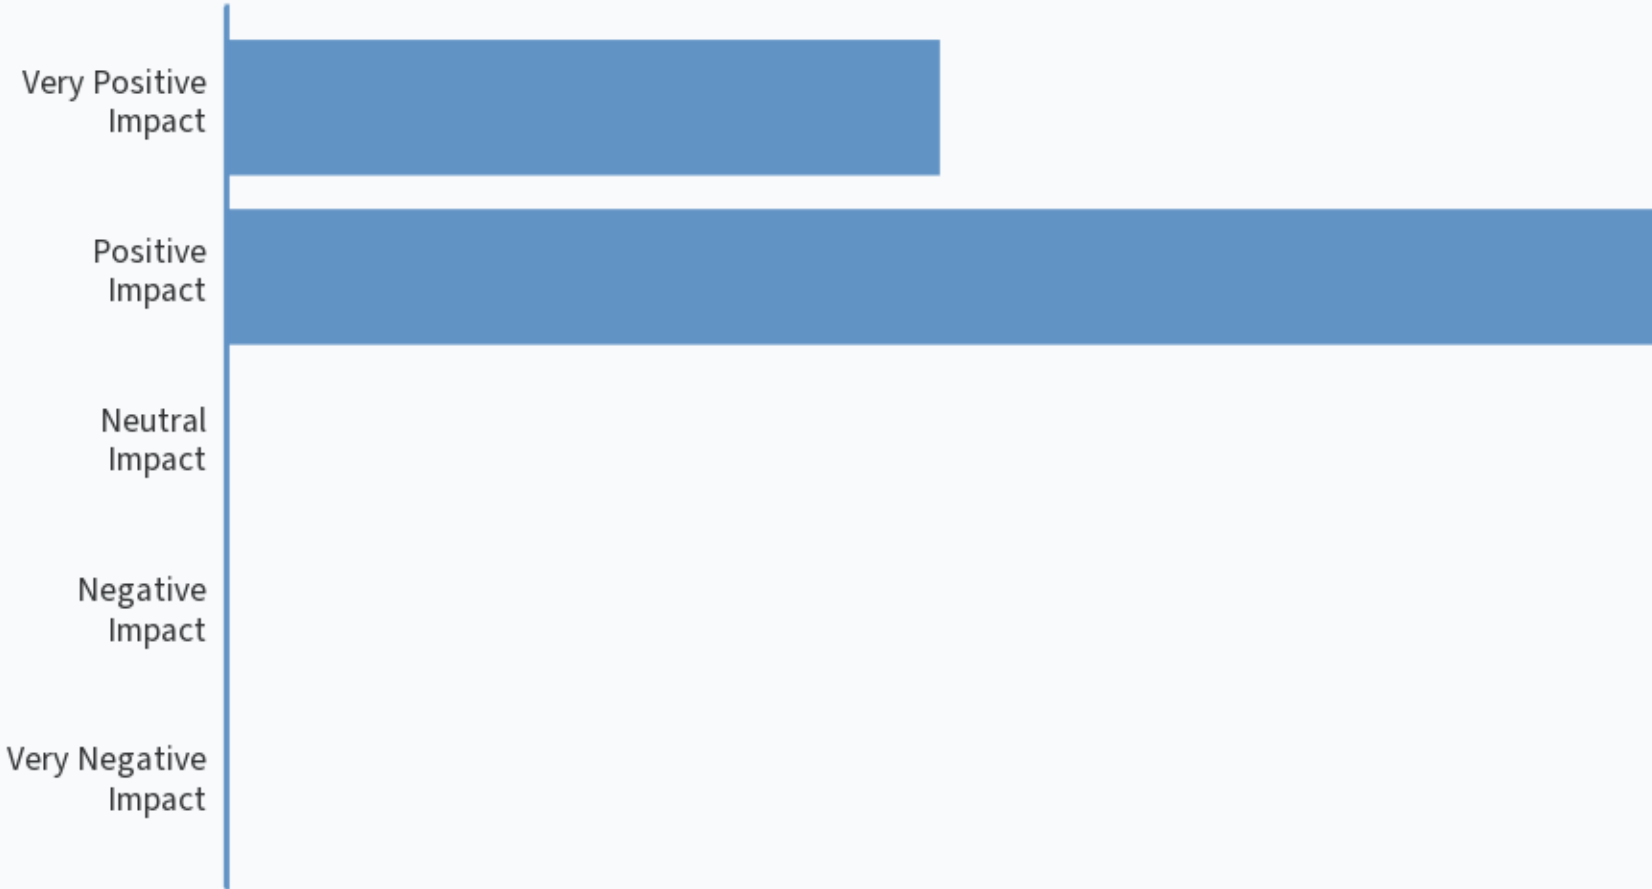

The existing site may have space constraints due to existing buildings, limited parent / bus pick-up and drop-off lanes and additional space for larger student enrollment. Would a 3-story building (to help address site constraints) concern you?

To what extent do COLLABORATIVE LEARNING EXPERIENCES impact student success?

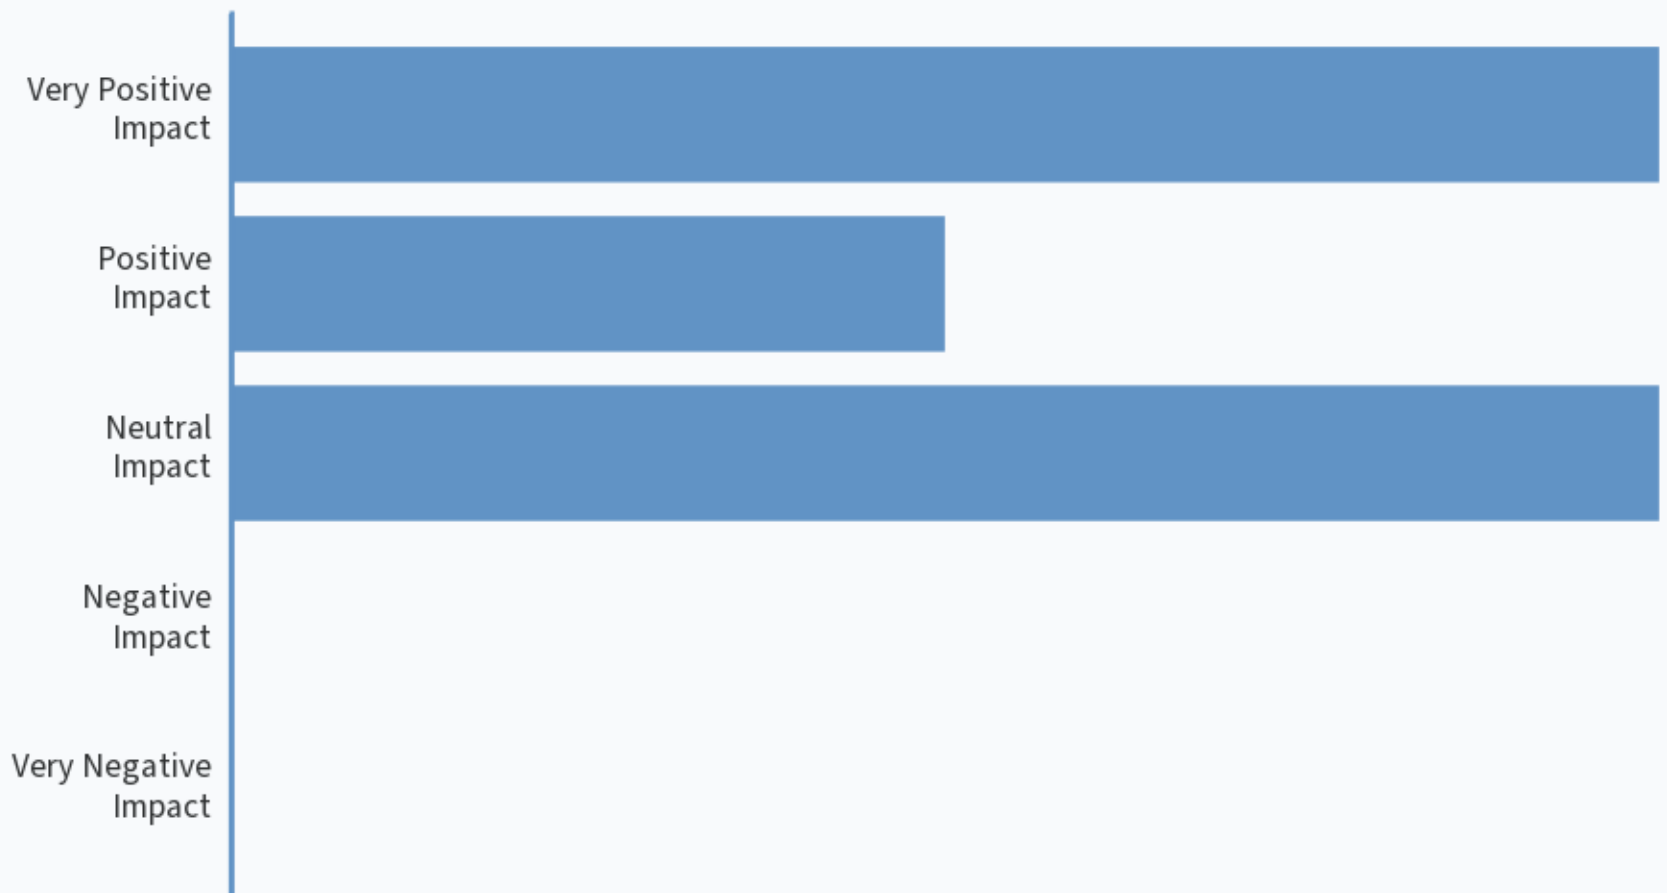

To what extent do MATERIALS & FINISHES impact student success?

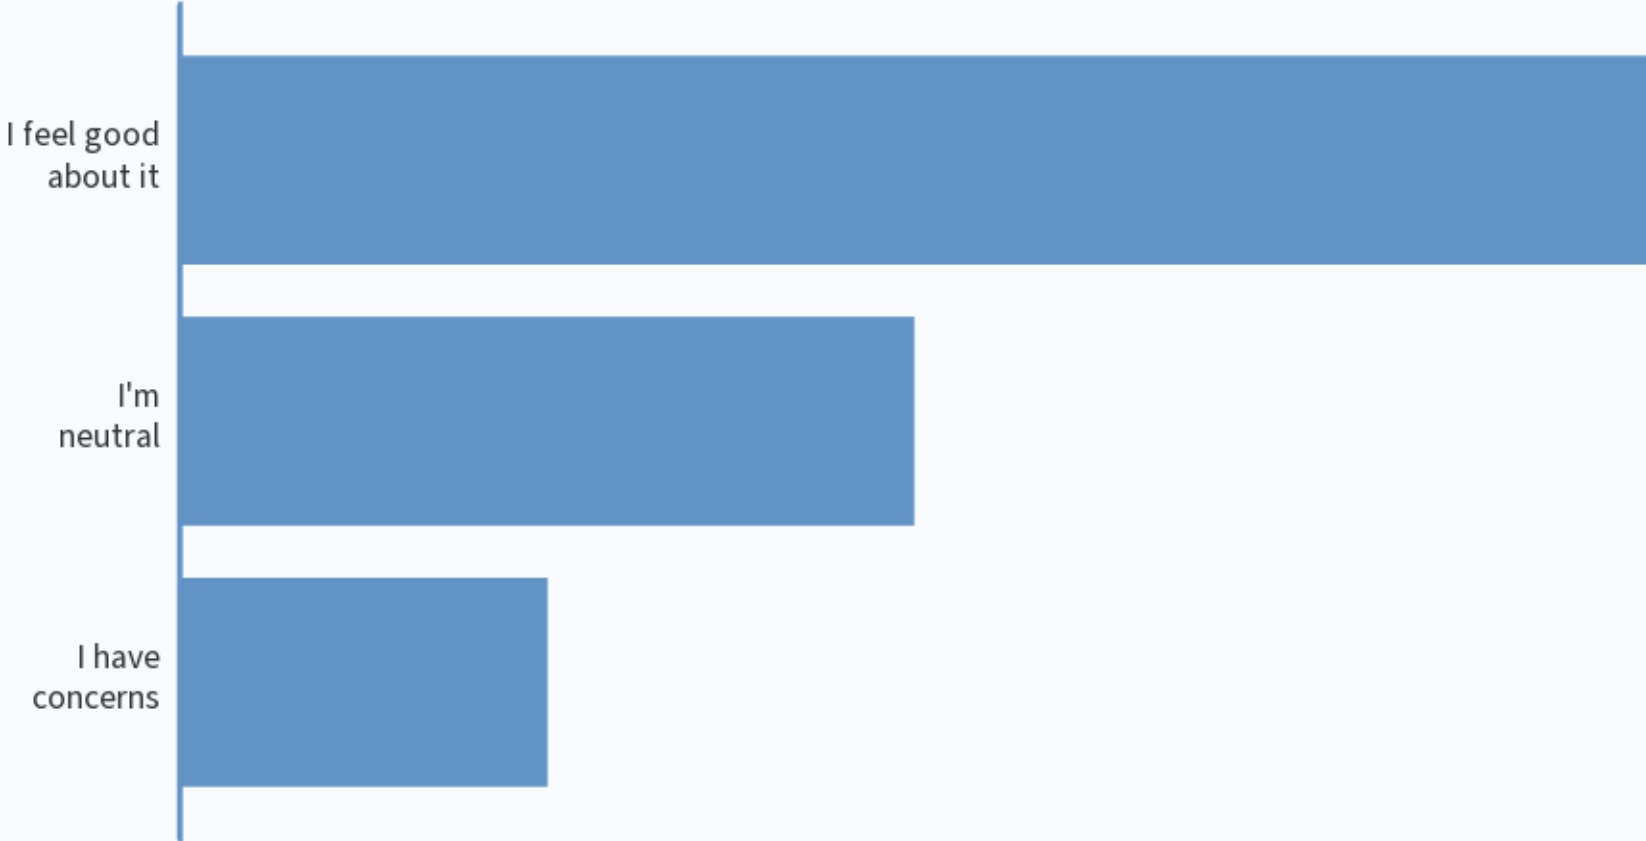

When students walk into this building, I want them to feel ...

To what extent do OUTDOOR LEARNING EXPERIENCES impact student success?

How do you feel about phased construction (given proper safety and security measures are in place)?

Which street do you prefer the entrance be located?
