

20-21 ARSA Grade Recovery One Pager

If you are currently failing two or more core classes for the year, you are in jeopardy of being retained and repeating your current grade. However, you have a unique opportunity to recover your failing grades. Your current teachers will communicate to you that you are failing their classes for the year. Your parents are also being notified that you are failing two or more core classes for the year. You have until June 4th to complete your grade recovery for each core class you are currently failing for the year. Below are links for each subject by grade so you can begin your recovery immediately.

6th Grade
