We are proud to challenge our students to build a solid foundation to work towards college, career, military and beyond.

Principal Alphér Garrett-Jones has 32 years of experience with all but 2 years in Dallas ISD. She holds a bachelor’s degree from North Texas State University and a master’s in education from the University of Texas at Austin.

At Charles Rice Learning Center, our record of academic excellence brings us great pride in our students and in the work we do teaching them to think critically and reason intelligently. We are excited to see our efforts earn distinctions from the Texas Education Agency for meeting academic standards in all areas. This achievement is a true testament to our students, teachers and parents.

I consider it a blessing to work with dedicated educators who are champions for students and seek every opportunity to improve classroom instruction. Through professional development and culturally responsive teaching strategies, our teachers know how to keep students engaged.

Two of our greatest strengths are our parental and community relationships which allow us to offer students opportunities they may not otherwise experience. Before and after-school programs also provide enrichment that supports student achievement.

We are proud to challenge our students to build a solid foundation to work towards college, career, military and beyond.
