Campus Discipline Plan

In an effort to protect the instructional integrity of the classroom, teachers should implement an effective classroom management plan. Effective classroom management strategies include communicating clear expectations, fair and consistent administration of the classroom management plan, positive and supportive interaction with students (i.e. Love and Logic), and redirecting level 1 misconduct with a private conversation with the student and/or parent contact.

Students come to school with a variety of situational issues. Teachers should make every attempt to get to know their students background and make appropriate decisions to support them and keep them educationally on track. Teachers may also need to refer a student to the counselor for SST intervention.

Teachers should follow these guidelines for the following common level 1 infractions:

- Cell phones usage is not allowed in classrooms or hallways. Students are not allowed to charge their cell phones during class time.
- Ear buds are not allowed in the classrooms during instructional time or hallways during passing periods. Teachers should not allow students to wear ear buds even if the student has the music turned off.
- If a teacher needs to remove a student for a level 1 infraction, the teacher must text an administrator prior to the student being sent out of the classroom. Teachers are still responsible for completing a full Discipline Referral form by the end of the school day and forward that form to the appropriate administrator.
- Students should not be removed from class for failure to bring supplies (pen, pencil, spiral notebook, etc.). The school will provide extra supplies for teachers to distribute to students who come unprepared. The goal is to keep students in the classroom.
- The first referral for a level 1 disruption will result in a conference between the administrator and student. Students will be sent to ISS for a period of time at the discretion of the administrator (i.e. remainder of period or day).
- Administrators will follow District guidelines as specified in the Student Code of Conduct when addressing repetitive level 1 disruptions.
- Level 2 and 3 disruptions will be addressed by administrators and campus security as outlined by the Student Code of Conduct.
