- **Logramos Read**

### MEASURES OF ENGLISH PROFICIENCY
- **WMLS**
Notes, Definitions, and Data Descriptions

The TEA will release passing standards for the 2008 TAKS-Modified test in late summer. When they are available, an addendum to the Campus Data Packet with reports for TAKS-M will be available on MyData Portal.

Student results for the 2008 TELPAS will be sent by the TEA in September. An addendum with these results will be posted on MyData Portal by October.

2007-08 SCHOOL SUMMARY

- Student percentages are computed as the percentage of total student enrollment.
- More detailed information is available in ENROLLMENT and TEACHER reports.
- “Economically disadvantaged” students are those receiving free or reduced-price lunches.
- Teacher demographics and assignments are those reported to the TEA in the Public Education Information Management System (PEIMS) submission for the district.

ENROLLMENT

- Statistics are based on the school’s enrollment at the end of the fifth six-weeks grading period.
- “Economically disadvantaged” students are those receiving free or reduced-price lunches.
- “New” students were new to the district in 2007-08. They are counted as new if they were not enrolled in a district campus before the last day of the 2006-07 school year.
- The “retention rate” is the percentage of students in the same grade at the end of the fifth six-weeks grading period for both 2006-07 and 2007-08.

ATTENDANCE

- Statistics are based on student attendance through the end of the sixth six-weeks grading period (the end of the school year).
- “Average daily membership” is the total number of school days students were ENROLLED divided by the number of school days in the year.
- The “average daily attendance” number (N) is the total number of school days students were IN ATTENDANCE divided by the number of school days in the year. The “average daily attendance” percentage (%) is the average attendance rate. For each student, the number of days attended is divided by the number of days enrolled. This rate is then averaged across students.
- The number (N) of “yearly transactions” is the total number of transfer and withdrawal transactions in the school year. The percentage (%) is the number of transactions divided by “average daily membership,” which gives (on average) the percentage of the membership associated with a transaction.
- “Continuously enrolled” students are enrolled on the first day of the second six-weeks grading period and on the last day of testing.
- The “stability rate” is the number of continuously enrolled students divided by “average daily membership.”

TEACHERS

- Teacher demographics and assignments are those reported to the TEA in the Public Education Information Management System (PEIMS) submission for the district.
TAKS
- Cells marked with an asterisk (*) indicate five or fewer students were tested. Blank cells indicate no students were tested.
- Student group assignments are those reported to the TEA in the Public Education Information Management System (PEIMS) submission for the district.
- Statistics on the objective performance summaries are averages for all students in the grade indicated.
- An “average percentage correct” is computed as follows: for each student, divide the number of items correctly answered by the total number of items in the test section, then compute the average percentage for all students. For written compositions, an “average composition rating” is presented. TAKS compositions are rated on a scale of 1 to 4.
- Cell shading for percentage meeting standard is based on the AEIS or AYP minimum requirement for 2009, whichever is higher for the subject test.
- READING and MATHEMATICS statistics for SSI grades (3, 5, and 8) are based on scores cumulative through the second administration.

SCE Compliance and ITBS / ITED / Logramos
- Cells marked with an asterisk (*) indicate five or fewer students were tested. Blank cells indicate no students were tested.
- Student group assignments are based on demographic data in the Dallas ISD student database.
- Kindergarten ITBS reading results for all three years are for the Language Total subtest; all other grades' results reflect Reading Total performance. (The Reading Total summary is not available with use of the level 5R form administered to kindergarteners in 2008.) All Logramos reading summaries are for Reading Total. The number tested includes kindergarteners.
- Numbers tested in READING for 2006 and 2007 may not match those reported in campus data packets published in the last two years. Previous totals did not consistently include students in Kindergarten, though documentation included with the reports indicated otherwise.
