Welcome!
Choose Dallas ISD: Online Registration for 2021 - 2022
All students will be using the SchoolMint system to register for the 2021-2022 school year.

Application, accept or decline enrollment offers, and register for the upcoming school year for their student to attend a "choice" school. Here, parents may also monitor the status of their student's application. Choose Dallas ISD Enrollment System – this is the system parents will use to register or submit an application.
