DCCCD Systems

At the DCCCD, eConnect is our administrative system for students and eCampus is the system that students use to access online classes or online components of their face-to-face classes.

Updating your E-Connect password

If you created a password for any of the DCCCD’s systems before August 17 2018 you will need to update/change your password.

Please Click

https://dcccd.edu/password-update

and follow the instructions “For Students”

eConnect (administrative information)

Students can access eConnect by going to http://econnect.dcccd.edu

From here they can update personal information, check their progress and grades.

eCampus (access to class resources and materials)

NOTE: We recommend new students watch the following short video to learn more about the experience of studying and navigating their online course before they access eCampus https://www.youtube.com/watch?v=cqXjc3wGWr8

1. In a web-browser (ideally Chrome) access eCampus (the DCCCD’s online instruction area) from the following address: http://ecampus.dcccd.edu
2. On the page that appears students can find a number of helpful resources by clicking on “eCampus Student Tutorials” in the top right of the screen.
3. Students can access classes by clicking on the Access Courses link on the eCampus front page and then clicking on the link for their class

Where can students get help with the technology?

1. Dual credit students with eCampus or eConnect issues can call 972-669-6402 Mon-Sun. 7am-12 midnight
2. From the menu presented to them dual credit students should press 1 and they will be directed to a District IT helpdesk employee.
